ADVERTISING THE CENTENNIAL

Edward King, writing the Boston Journal, says the manner of advertis ng the Centennial is something which few people know anything about, but is a gigantic work. The amount of writing, the correspondence necessary with people in far-off lands, the conferences with commissioners, the arrangements for translations, etc., which have been necessary, were enough to frighten any ordinary person into the belief that he yould never be able to accomplish them. But Gen. C. B. Norton, to whom this lifficult task was entrusted, has accomplished it marvelously well. He spread intelligence concerning the exhibition's aims and its peculiar character broadcast throughout the world. His mis siyes were scattered from Austria to St. Petersburg, from Valparaise to St Johns, from Constantinople to Dublin. At enormous pains he secured a vast deal of information about most of the contributing countries, some of which will be printed in the official catalogue. He is now engaged in sending informa-tion of the exhibition to 1,200 papers scattered throughout the United States and if the inhabitants of those sections do not all come to the show it will not be his fault.

Everything has been explained to the whole world in the most caroful fashion; and it is safe to say that there is scarcely a corner of the civilized or emi-cayilized countries at this momen where the Philadelphia Exhibition has not been heard of. The effect of this begins to be seen

Though it would be absurd to say that the city is crowded with strangers from foreign climes, it is certain that one hoars on the streets much oftener than usual, the eastmet like clack of the Spanish accent; the staccate French t is melting Portuguese, the liquid Italian and the smooth Russian. There 18 a little army of foreign commissioners and their assistants, their names and titles fill a fat little pamphlet of twelve pages. But the official personages are of the only ones that give a foreign air to the staid avenues of the Centennial city. German is of course heard everywhere, for the Teutons swarm in the city, where one can obtain a comfortable home at a reasonable price. I think one can see plenty of evidences that Gen. Norton's pamphieteering has done a great deal of good in bringing the stranger to the gates of Philadel-

ROTATION OF CROPS—Says the Practical Farmer "On the farm connected years' course. The lands in active cultivation are usually allotted re follows Thirty acres to grass and clover, fifteen acres to wheat, fifteen to 'corn', fifteen acres to oats, two acres to potatoes and three acres to sowed corn. The clover field, for instance, will be moved. In the third year it will be plowed and planted to corn and pota-toes or wheat. In the fourth year it will be again devoted to some general crop, and in the fifth year it will be sown with grain and seeded, so that the eight year will find it again a field of clover. This system, with a judic ions course of fertilizing, has been found most successful.

CLEANED OUT.

The Bourbons of Indiana were handsomely chaned out by the Republicans in their city elections on Tuesday. The Ropublicans carried Indianapolis by over 4,000 majority, and out of twentyfive principal cities he rd from, the Democrats carried but four. The action of the late Democratic State convention in Indiana, insures a certain and easy victory to the Republican party in that state in all elections where party lines are drawn. SUCCESSFUL CANDIDATES FOR Now it was proposed by the dominant party in the House to abandon this policy of peace, civilization and christianity. The dominant party in the House cared very little about either civilization or christianity. (Laughter) Neither was material to its success. If this general conference, representing ar mullion and a balf of people, shall send a committee of five to the senate, its views would be heard and respected, and the bill would not pass, for there was some regard for christianity and civilization at that end of the capitol. [Applause.] The president was not a methodist himself, but his wife was, and she could appeal to him in behalf of the peace policy which he had inaugurated. Judge Hawley, of Jowa, and Gener-

al Clinton B. Fisk, of the St. Louis conference, expressed regrets that political issues or personal references should have been made which was, also numistakably the sentiment of the conference. The resolutions were referred to a special committee. The report of the flaternal delega-

There will be divine service in this church to morrow at the usual hours -The Holy Communion will be celebrat ed at 10} a m. Subject of morning sermon, "Resisting the Devil"

Had Streets.—The weather has been such that but little has yet been done in the line of street improvements, and many of the thoroughtaics about town are getting into a decidedly bad condition, as are also many of the walks -There are some places in the streets which are unsafe and where accidents are liable to occur daily. It will be ion the interest of the city to have such places repaired as soon as possible, as should an accident occur, the city would be liable for damage While the bad the streets to remain in an unsafe condition, it would hardly prove a justification in case of a suit for damages.

### MARRIED.

At Bloomfield, Edgar county, Illinois, on Thursday, May 3, 1876, at the residence of the bride's father, Mr. Thomas Wynn, Thomas Hudson, of Moawequa, Ill., and Miss Viola Wynn

The above happy affair came off at 0 o'clock in the morning, and the participants took their departure on the early train for their new house in Shelby county. CHAIN PUMPS

THE SUBSCRIBER WOULD RESPECT-tully announce to the citizons of Deca-tur and Macon and adjoining contribes, that he has secured the EXCLUSIVE RIGHT to

MANUFACTURE AND SELL MERRILL & BARTLETT'S

Water-Purifying

Rubber Bucket Chain Pump,

And is prepared to furnish said Chain Pumps on short notice. The advantages of this Pump over many others are many. The Chain being button-less, it is much lighter, consequently it is nuch lighter, consequently it is not liable to broak, and works much easier. The KUBRER BUCKETS which are attached to the Chain will not wear the Tubing, consequently it will leat longer than when Metal Buttons are used. It is, positively, ANTI-FREEZING. It is apositively, ANTI-FREEZING. It is apositively ANTI-FREEZING. It is apositive WATER PURIFIER, as each Bucket is constructed with an AIR CHAMBER, which carries a given quantity of pure-air into the water, which immediately diffuses through the entire body of water, purifying and cleaning, and rendering it fit for use.
